WORK EXPERIENCE

Senior Product Manager - Growth

Rail Europe 02/2025 - Present, Paris, France (Remote)

- Improved conversion rate by 25% through mobile-first optimization, A/B testing framework, and systematic funnel improvements addressing mobile-desktop performance gaps
- Established data-driven experimentation culture, clarifying product analytics processes and enabling continuous optimization across acquisition, conversion, and retention
- Leading SEO recovery initiative to reverse year-over-year traffic decline through technical optimization, content strategy, and CMS migration.
- Achieved 8% conversion lift on travel insurance through A/B testing of value communication and presentation, establishing ancillary revenue stream via 3rd party integrations with minimal impact to core booking flow

Senior Product Manager → Head of Product

Virail GmbH 04/2020 - 02/2025, Berlin, Germany (Remote)

- Led transition from meta-search to an OTA model, enabling direct sales and contributing to a revenue uplift of over 45% after launch.
- Scaled the engineering team from 4 to 8 developers, reduced delivery times, and improved coordination across product, design, and tech
- Ran 80+ A/B tests to improve UX and monetization, increasing core product CTR by 25% and ad revenue by 15%
- Drove SEO growth by creating data-driven landing pages that attracted 100,000+ daily users.

Product Manager - Integration

European Medicines Agency 03/2017 - 04/2019, London, UK

- Orchestrated the implementation of a Cloud Identity Platform, enhancing organizational efficiency with an 84% improvement in SLA performance and a 70% reduction in costs.
- Revamped the data mastering process, leading to a 57% improvement in data quality metrics, supporting strategic decision-making and improving product offerings.
- Developed a strategic communication plan and implemented a CRM system to enhance educational processes for stakeholders and customers.
